Why Choose Cars From China

-More Brands To Choose

China owns the most car factories in the world and they cover not only local Chinese brands but also lots of Japanese /Korean /European /American brands

-Cars With Newer Production Time:

Unlike the used cars from Japan and US, most of the used cars in China are newer usually after 2017. And it's very suitable for the used car importing policy of most of the African countries

-Nice Price

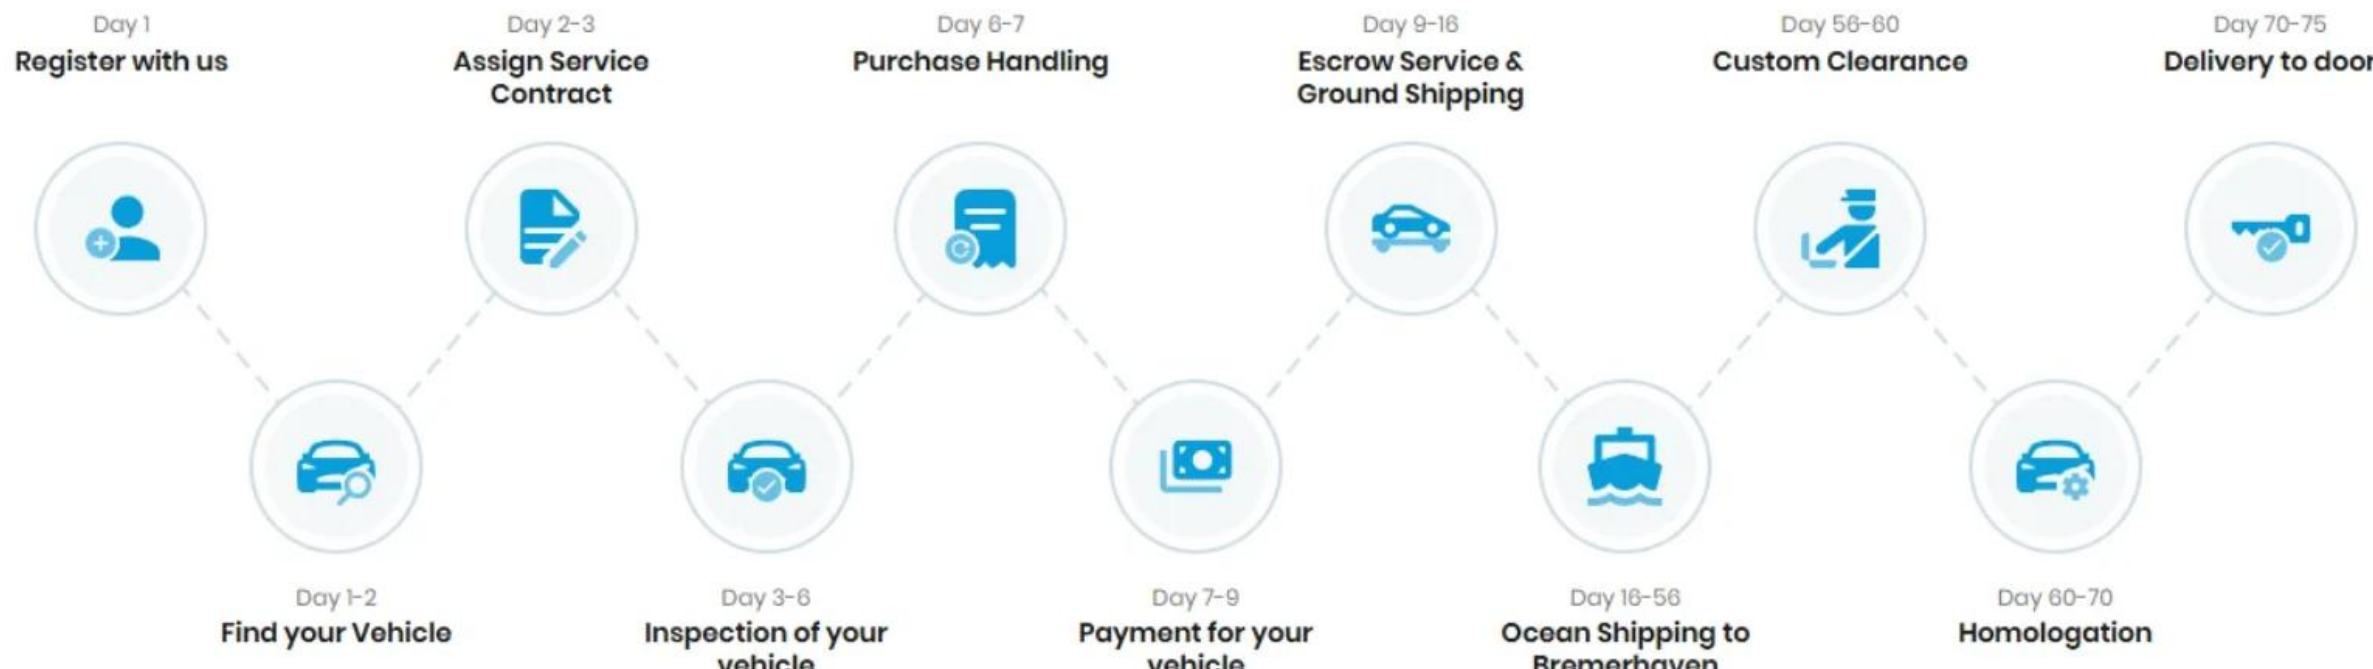

Due to the competitive incentives among various brands, the prices of new cars in China are very low, and the prices of used cars in China are also very competitive

-Left-Hand Drive

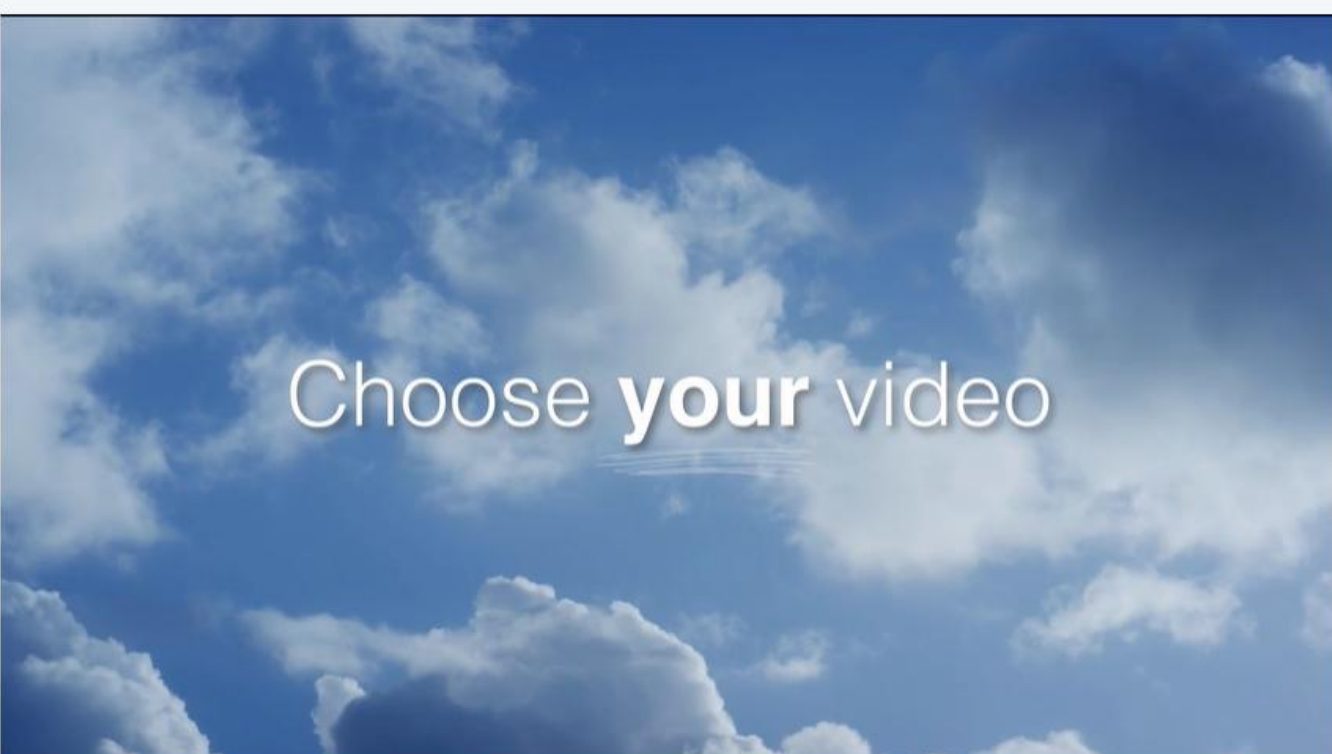

Conforms to the posture habits of most African and Middle Eastern countries
